

SMS Electronics Limited – Vacancy

Graduate Test Development Engineer

SMS Electronics is a leading provider of electronics manufacturing services in the UK, with over a 100 years of manufacturing experience.

We now have an opportunity for a Graduate Test Development Engineer to join our Test Development team. We require a newly qualified Electronics Graduate who is interested in developing their career in this role. The job requires someone with multidisciplinary skills to support and develop the test processes required to meet our customer's demands and challenges.

After suitable training the responsibilities of the role will include: -

- Creating/modifying bespoke functional test programs for complex electronic equipment.
- Analyze test result data to find root cause failure mechanisms and opportunities to eliminate repeat occurrences.
- Improving on existing test implementations.

Ideally we are seeking graduates with some experience of Manufacturing and/or Programming skills in C++ or visual basic.

Interested candidates should send a CV and letter of application to

Mick Hooley, Personnel Consultant, SMS Electronics Limited, Technology Drive, Beeston, Nottingham. NG9 1LA. Or e-mail

mick.hooley@smselectronics.co.uk

Vacancy closing date: 10th June 2011
