

SMS Electronics Ltd at Southern Electronics 2008

11th February 2008

SMS Electronics Ltd successfully exhibited at the Southern Manufacturing and Electronics Exhibition at its new home in Farnborough, Hampshire.

This was our fifth consecutive year not only exhibiting at the show, but also sponsoring the free manufacturing and electronics seminars.

Also present on our stand for the first time was our sister company SMS Product Services.

The show was one of our busiest yet with many visitors approaching our exhibition stand (pictured above).

This year's SMS competition was a prize draw to win the popular Nintendo Wii games console.

Congratulations to Dave Aspin from EADS Defence and Security (pictured left), who was this year's lucky winner.
