

SMS Electronics Ltd and SMS Product Services Ltd at Southern 2009

March 2009

SMS Electronics Ltd successfully exhibited at the Southern Manufacturing and Electronics Exhibition in Farnborough, Hampshire.

This was our sixth consecutive year sponsoring the free manufacturing and electronics seminars.

Our sister company SMS Product Services exhibited alongside us presenting its Repair and Refurbishing business.

Pictured (above) is a telephone before and after refurbishment by SMS Product Services.

Despite the current economic climate, the show was busier than expected, with plenty of visitors enquiring about our services.

This year's SMS competition was a daily prize draw to win a bottle of champagne.

Congratulations to Dave Mullard from PG Drives (pictured left), and Paul Corcoran from DiGiCo who were this year's lucky winners!
